# nADA offers a **window** of opportunities

Discover the endless possibilities of transparency.  
nADA is able to offer:

- horizontal windows
- vertical windows
- two windows
- three windows
- logo windows
- ...

# nADA has **groundbreaking** **print possibilities**

Paper printing and windows come together in one process. You can print anywhere.

nADA is  
thé **game**  
**changing**  
and  
**sustainable**  
**solution** for  
paper bags.

# 98%

**Only paper,**  
no plastic.

The first paper window bag made with just 1 material. **Only paper, no plastic.** nADA use vegetal coating with transparent zones and only one line of glue.

## mono-material paper window bag

Lowest environmental tax

Pay the lowest environmental tax possible.

## nADA, two world patents, the **first paper window bag made of 1 material.**

Experience all the benefits of a window bag, without the drawbacks of single-use plastic.

No compromise in quality and ease of use.

Let's choose future proof, sustainable packaging.

nADA is the **game changing** and **sustainable solution** for paper bags.

# You gain time and money

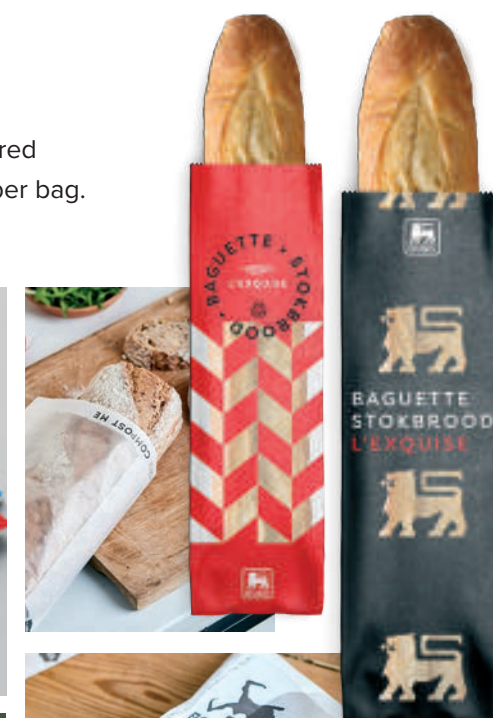

Paper bags offer numerous advantages. The transparent window makes your bags extra user-friendly. After all, you can see perfectly what is in your bags when you place them in your fridge or pantry, for example.

You can even save time and money on handling at the checkout. nADA is a winner on many levels.

# nADA offers endless possibilities in marketing and branding

Ask for the nADA lookbook to get inspired and involved in the revolution of the paper bag.

nADA is the **game changing** and **sustainable solution** for paper bags.

LET'S  
CHANGE  
THE GAME
